

Thanet Arnont (ธเนศ อานนท์)

Senior Software Engineer & System Architect — Wisdom Vast Co., Ltd.

✉ thanet@wisdomvast.com in linkedin.com/in/thanet-arnont 🌐 irq5.github.io/thanet-profile- 📍 Nonthaburi, Thailand

PROFESSIONAL SUMMARY

Seasoned Software Engineer and System Architect with **20+ years of continuous production experience** since 2004. Built enterprise-grade systems for Thailand's top telecom, banking, and government sectors — including national-scale real-time auction platforms and financial compliance systems. Now focused on **modern full-stack development, AI-driven platforms, and developer tooling**, shipping production apps with Next.js, TypeScript, React, and MCP integration. Available for consulting through Wisdom Vast Co., Ltd.

CORE TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, Java, PHP, Go, SQL
Frontend	React 19, Next.js 16, Vue.js, Tailwind CSS, Canvas API
Backend	Node.js, Express, REST APIs, GraphQL, WebSocket
Database	PostgreSQL, MySQL, SQLite, MongoDB, Redis
Architecture	System Analysis & Design, Microservices, RBAC, OAuth 2.0, API Design (REST / GraphQL / MCP)
AI & Tooling	MCP server development (31 production tools), LLM integration, AI-assisted SDLC, multi-format code generation
DevOps	Git, Docker, CI/CD, AWS, Vercel, Linux administration

PROFESSIONAL EXPERIENCE

System Architect & Senior Developer — Wisdom Vast Co., Ltd. 2008 – Present

- Led development of **15+ production applications for AIS**, Thailand's #1 telecom — gamification, knowledge management, e-service, and CRM platforms.
- Built the **NBTC Digital TV Spectrum Auction** — national-scale real-time bidding platform with WebSocket engine and government-grade audit trail.
- Delivered the **Off-Budget Accounting System for the Ministry of Finance** — fund tracking, multi-level approval workflows, compliance reporting.
- Shipped **5 production platforms in 2026**: Hauction, SDLC_AI, Programming Visualize, Drawing Game, and GitlabSelfhost.
- Built a production **MCP server with 31 tools** for AI collaboration; automated **GitLab migration of 1000+ projects**.

System Analyst — Advance System Consulting 2007 – 2008

- Built the **Treasury Risk Management System for Krungthai Bank** — risk calculations, regulatory reporting, approval workflows.

System Analyst / R&D — DTAC (Total Access Communication) 2004 – 2007

- Researched and developed mobile network services; studied global mobile technologies; integrated vendor test systems and developed system connection interfaces.

FEATURED PROJECTS (2026)

Programming Visualize (MongoModel Editor) — Next.js 16 · React 19 · TypeScript strict · MCP

Visual MongoDB schema designer with drag-and-drop canvas, relationship modeling, 8-format code generation, workspace-wide linting, and an MCP server (31 tools) so AI agents work from the same data as the web UI.

Hauction — Hybrid Auction Platform — Next.js · better-sqlite3 · WebSockets · RBAC

Multi-shop platform with dual auction engine (live event + long-term marketplace), 5-role permission hierarchy, KYC approval workflows, and full Thai Baht localization.

SDLC_AI — AI-Driven SDLC Platform — [Next.js](#) · [GitLab OAuth](#) · [LLM integration](#)

Guides software projects from requirements to deployment with AI feedback at every stage; multi-role dashboards (PO/PM/BA/SA/DevOps) via GitLab OAuth with intelligent gap detection.

GitlabSelfhost — Migration & Inventory — [Python](#) · [GitLab REST API](#)

Automated enterprise GitLab migration: structured CSV schema, logic-based mapping, bulk operations across instances with validation and rollback — 1000+ projects processed.

Drawing Game — Realtime Multiplayer — [Canvas API](#) · [WebSocket](#)

Real-time drawing and guessing game with low-latency canvas sync — built end-to-end through the SDLC_AI platform as a proof of its methodology.

EDUCATION

B.Eng. Computer Engineering

King Mongkut's Institute of Technology Ladkrabang
(KMITL)
2000 – 2004
